

Introducing **UltraPro S100**

Continuing Excellence in Electrodiagnostic Systems

Reliability, Performance, Portability – Exceptional Value

With over 60 years of proven experience, Natus Neurology introduces the UltraPro S100. Featuring automatic reporting and user-friendly hardware and software, the UltraPro bundles high performance, ease of use, and exceptional value in a compact and reliable package.

Proven Reliability

Built on the 60-year heritage of Nicolet, Dantec, Xltek and Teca brands, UltraPro S100 was developed in close cooperation with physicians and technologists and continues a tradition of reliable and dependable electrodiagnostic equipment.

High Quality

All-in-one electrodiagnostic system with dedicated controls, integrated stimulators and exceptional audio and signal quality.

Exceptional Value

Affordable equipment that is flexible and powerful enough to meet your diagnostic needs without compromising ease of use or quality.

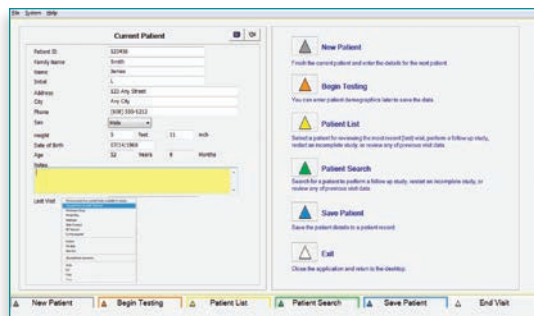

Trouble-Free Installation

With only 3 cables, setup is easy and no installation support is required. Minimal set up time, allows you to start performing studies immediately.

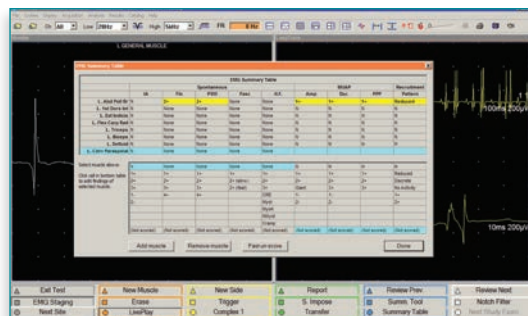

Ease of Use

Simple user interface allows you to navigate through procedures quickly to reduce testing time. On-screen help provides immediate assistance reducing the need for technical support. The UltraPro S100 system includes instructional video classes, virtually eliminating training expenses.

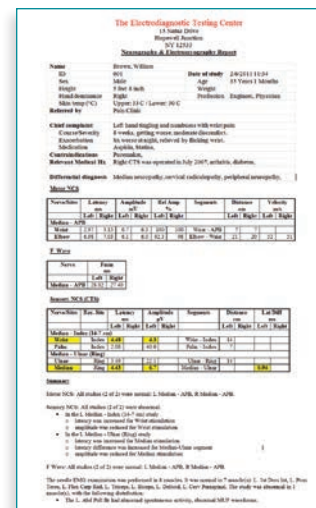

Versatile UltraPro S100 Software for Electrodiagnostic and Nerve Conduction Studies

Simple Workflow

Electrodiagnostics with Scoring Tool

Automatic Summary Generation

Simple workflow

The one-button interface, distinctive function keys, online summaries and built-in reference value database save time, generating reports faster, improving service to referring physicians and connecting more efficiently with electronic medical records.

Focus on the patient, not the equipment

An all-in-one lightweight system that travels easily in a roller case, UltraPro S100's available triple programmable footswitch supports hands-free operation, and a three-channel amplifier that allows for electrodes to remain in place, accommodating the most common modalities (motor, sensory, needle EMG), reducing test time and improving the patient experience.

Service

Exemplary service is key for Natus clients. Natus Neurology offers a range of service options, backed by an in-house support team staffed with experts. Factory-trained field technicians and certified clinical-applications specialists offer 24/7 support – remote and onsite, and the largest service network available for customized service contracts including preventative maintenance visits and computer upgrades.

Supplies

Natus Neurology offers a full range of neurodiagnostic accessories and supplies, promoting patient comfort.

- Fast ordering process and reduced shipping costs save you time and money.
- No-hassle warranty gives you the products you want with the peace of mind you need.
